

TROY Security Printing Solutions

HP AUTHORIZED - TROY ENHANCED

Benefits of TROY Security Features

Providing Secure Paper Tray Solutions

Help safeguard your high-value paper stock with secure locking trays, providing only authorized personnel with access. The application of secure locking trays helps protect both high value security forms paper and plain paper stock from theft.

Preventing Stock Theft

Paper tray shielding helps prevent paper removal from the back of your printer. TROY uses rugged sheet metal to minimize risk.

“With the new trays, it is now virtually impossible to remove paper stock from a locked tray.”

- TROY banking customer

Protecting Against Document Fraud

Add an additional layer of security with TROY's patented Security Toner (available separately). This anti-fraud technology forces a bright red stain to appear if chemical alteration of a document is attempted. This unique formulation can be used to protect transcripts, medical documents, legal documents, and any other important documents. TROY helps protect the reputation of all security documents by issuing organizations with configured solutions that meet their security needs.

Major Selling Points

- TROY Security Printing Solutions has been named a worldwide Platinum Partner through the HP Solutions Business Partner Program.
- As the only HP Solutions Business Partner authorized to enhance HP LaserJet printers with built-in security features, TROY provides customers with the ability to print documents in a secure environment.
- With more than 50 years of experience, TROY solutions have proven success with preventing fraud.
