

TROY M806 MICR Printer

HP Authorized • TROY Enhanced

Select your preferred level of security by choosing from three models including our basic MICR printer, our more advanced MICR Secure printer, or our most advanced MICR Secure Ex printer. All TROY MICR printers are fully compatible with TROY MICR cartridges and standard HP cartridges. Fast printing and features like duplexing allow for multifunctional use in medium to large sized office environments. Enjoy HP award-winning reliability combined with printer optimized security from TROY.

Benefits

Streamline Your Secure Check Printing

TROY M806 MICR Printers eliminate the security risks of using preprinted check stock by allowing companies to print checks on demand and incorporating their logo, customer data, signature and MICR line onto the checks at point of print.

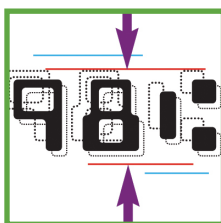

Add Layers of Security

The security features of the TROY M806 MICR Printer combined with TROY MICR Toner Secure ensures that each printed check is highly resistant to fraudulent alteration.

Reduce Time Consuming Processes

Simplify or eliminate chain of custody procedures with built-in tray locks and steel shielding that protect valuable check stock in the printer.

Features

ExPT™ Exact Positioning Technology

A MICR line out of alignment is one cause of rejected checks, a multi-million dollar problem for banks and companies. ExPT™ allows users to precisely adjust the MICR line without affecting the data file.

Available on all TROY M806 MICR printers.

Built-In Secure Encryption and Decryption

Data security is critical in a distributed printing application. TROY's encryption/ decryption technology "unlocks" and prints the data only when it is received at the TROY printer.

Available on TROY M806 MICR Secure and MICR Secure Ex printers.

Exclusive TROYMark™ Intelligent Anti-Tampering Technology

TROYMark™ is a watermark of user-defined variable data, printed diagonally across each check. It provides state-of-the-art deterrence of fraudulent check alteration.

Standard on TROY M806 MICR Secure Ex printers.

3-Position Printer Lock

Most businesses locate their workgroup printer in an open office environment, creating a security risk. This 3-position lock allows users to physically lock the printer's secure resources, protecting users from fraud by refusing unauthorized access.

Available on TROY M806 MICR Secure Ex printers.

Paper Tray Locks & Tray Shielding

Prevent unauthorized access to valuable check stock with built-in locking paper trays and steel tray shielding to prevent paper removal from the back of the printer.

Optional on MICR and MICR Secure printers. Standard on Secure Ex printers.
